

Relative logo sizes for sponsor listings

Logos that are the same sponsor level should fit into one of these boxes, with exception of if the sponsor name would be too small due to poor logo design.

****If a logo has something that is well outside the rest of the design it's okay to let that part hang out of the box.**

****If a logo is round or oval it can be a bit bigger than the box.**

****This'll get you close!**
