

BigWow Displays

ASSET SALE

Sign Shop / Trade Show / Exhibit / Retail Displays / Soft Signage

BigWow Displays has operated in the Boulder area since 2008, predominantly focusing on large format print for the display, exhibition and trade show markets. Due to pending retirement we are looking at selling off all inventory, materials, equipment and tools - full lists are included in this letter.

CrossWire Inventory

Manufactured by X-Module in Denmark, this is a 'tool-less' mini truss system and current product, further information is available at www.x-module.com - the product we have on hand is referred to as X-10 in the European market - <https://www.x-module.com/x-10-crosswire>

Total wholesale value \$62,019 / Total retail value \$125,978

Pages 1-2

Contains all the standard inventory - shows product, numbers on hand, wholesale and retail prices

Total wholesale value \$77,950 / Total retail value \$122,429

Page 3

Contains equipment, hand tools, tables, cutters etc - prices shown are prices paid

\$13,026

Page 4

Sundry items - software, hardware, materials, substrates and other inventory items - this list is not exhaustive, there are many other items not featured which would also be included in a sale - sheet materials (aluminum, sintra, foamboard, gatorboard), sign blanks, miscellaneous displays etc.

\$150,000+ worth of product / inventory at current wholesale pricing

Over \$250,000 worth of product / inventory at current retail pricing

Bear in mind the majority of the profit in displays is in the print itself, which is not calculated here.

If you have any interest, would like any further information, or would like to arrange a visit to our warehouse to view - please feel free to contact me:
