

Messer Pisau Lama Ламе нож Nóż Zund Z45 Drag Knife Blade

Details:

Blade double sharp.

Pre-cut: 0.58 x TM

Post-cut: 0.58 x TM

Max cutting depth: 14 mm.

Blade thickness: 1.5 mm.

Blade material: HM/Carbide.

This is a new zund cutter blade Z45. The size of the knife is the

same as that of the Z44. However, it has been changed to a double-end with a cutting edge. The tool is more fully utilized and the cost is higher. Welcome to order. When the cutting edge of one end has been destroyed, it can be directly reversed and become a "new tool".
