WHO ARE WE?

We are Kingpin Creative....

Established in 2004, Kingpin Creative has been hard at work developing our business and aesthetic. Prior to starting Kingpin Creative our experience has including projects in Taiwan, Spain, Detroit and all over Southern California. Now on our own, we can serve clients with less restrictions, more attention and more detail. We enjoy the process and collaboration. We do not work on projects where watering down the process is the norm. We feel that if our client is making the investment of good design, they deserve our best effort. We are looking for clients who are ready to make an impression....

WHAT DO WE DO?

Kingpin performs the research, consultation, design and implementation of:

Office Campuses

Events

Theme Parks

Restaurants

Retail

City and Downtown

Institutional

Code

- Environments
- Wayfinding
- Signage
- Identity
- Posters
- Promotional &
- Print Graphics

For small and large businesses.....

HOW DO WE DO IT?

We could just design for the art of it, or draw up something cool with no real connection. But we believe graphic design is more than that...

It's a process, & collaboration between us and our clients to give their business a voice. That takes thought...

OUR PROCESS

- Identify
- Research
- Concept
- Refine
- Implement

LAUNCH

IDENTITY

IDENTITY

The image features a dark background with several overlapping, rounded rectangular shapes. A large white shape is positioned in the upper left, partially overlapping a light purple shape. Below the white shape is a black shape. To the right of the white shape is another light purple shape. A dotted line forms a large, irregular loop that encloses the white and black shapes, and extends towards the right edge of the image. The word 'IDENTITY' is written in white, bold, uppercase letters in the top left corner.

IDENTITY

IDENTITY

The image features a dark background with several overlapping, rounded rectangular shapes. A large white shape is positioned in the upper left, partially overlapping a light purple shape. Another light purple shape is on the right side, overlapping the white one and a darker purple shape at the bottom. A black shape is on the left side, overlapping the white one. Dotted lines form a grid-like pattern, connecting the corners of the shapes and creating a sense of depth and structure.
