

## The SEAL 54 Base provides the following features

### Optimum performance

- 1400 mm working width to cope with a wide range of media performance
- Adjustable pressure and speed settings for maximum versatility
- 50 mm nip opening to cover a wide range of substrates
- 50 mm nip opening suitable for working with a sled for road signs
- Heat assisted top roller for superb lamination performance
- 5 m/min max speed for improved productivity
- Manual nip adjustment for precise operation
- Robust, free standing design

### Ease of use

- Ergonomic control panel for ease of use
- Auto grip shafts for user friendly webbing
- Swing up feed table to facilitate easy set up

### Safety

- Foot switch for hands free operation
- Self checking safety eyes for increased operator safety
- CE certified

**The SEAL 54 Base laminator represents SEAL's latest offering to the rapidly moving digital display market. Ideal for mounting and laminating pressure sensitive solutions up to 1400 mm, this machine represents a flexible package at an affordable price, yet without compromising its functionality.**

The SEAL 54 Base is a pressure sensitive machine with heat assist on the top roller to provide superb results with a wide range of materials. Whatever the experience of the operator, the SEAL 54 Base will prove to be a simple machine to use and will deliver genuine flexibility and high performance levels for the small to medium sized end user.

Having great capability delivered at an affordable price, the 54 Base is ideal for signmakers. It will provide the means for these users to finish their images and create more applications thereby generating greater profitability. This laminator is also suitable for small to medium display based businesses who want to provide a wider range of applications and have no need for an encapsulating machine.

The SEAL 54 Base is ideal for producing a wide variety of applications (pressure sensitive materials only)
