

Summa 391-358 55°Thick Materials Drag Knife Blade

[Summa](#) replacement drag knife blades swivel around corners while staying pressed in the material when cutting. The thick material blade is perfect for sandblast applications and a multitude of other

thick material cutting applications with Summa vinyl cutters and plotters. Crafted from Tungsten Carbide, our genuine Summa Thick Material Drag Knife Blades hold a sharp edge between 10 and 50 X longer than cheaper steel blades.

Compatible blade holder: Summa Thick Materials Blade Holder (part number: 391-363).
